

To strengthen our international team in 49393 Lohne/ Germany and worldwide we are seeking:

- Agricultural Scientist (m/f/d)
- Agricultural Engineer (m/f/d)
- Agricultural Biologist (m/f/d)
- Veterinary Scientist (m/f/d)
- Biochemist (m/f/d)

Based in Lohne (Germany), Biochem is a family-owned company that develops and markets feed additives for animal nutrition. In keeping with the slogan „**Feed Safety for Food Safety**®“ and in compliance with GMP+, QS, DIN EN ISO 9001, and HACCP standards, Biochem produces high-quality supplements and feed additives in powder form along with water-soluble products, pastes, and liquids for pigs, poultry, ruminants, and horses. **4FEED!**® stands for innovative feed additives that focus on dietary aspects to support gut health and increase nutrient utilization. Biochem farm concepts also support veterinarians and livestock farmers in maintaining and improving animal health. For more than 35 years this has resulted in innovative and effective products and concepts within the triad of ecology, economy, and food safety. With more than 350 employees, Biochem is present with branch operations and a distribution network in over 70 countries worldwide.
